#### NEWS SUMMARY.

—Gold in New York yesterday closed at 332. -Cotton closed rather more steady; sales 1900 bales at 284c.

-In Liverpool yesterday, cotton closed dull; sales 8000 bales; uplands 12d. -The Spanish Finance Minister proposes to

abolish the salt and tobacco monopolies. -Fashionable parasols in Paris this year have handles of green and red morocco. -The prices of admission to the Boston

Peace Jubilee have been fixed at \$5, \$3 and \$2. There are fifty Chinese Catholics in San Francisco, some educated in the Catholic seminaries in China and able to speak Latin fluently.

-It takes fifty-seven paymasters, from brigadier-general down, to do nothing in the world but pay off the present standing army of the United States. -A Texas gentleman has received a quanti-

ty of silkworm eggs from France through the post. Some of the eggs hatched on the way, and the worms were living on their arrival. -The Columbus (Ga.) Sun reports that one

of the wealthiest and shrewdest financiers in Georgia save that the State's credit has been ruined eternally, and is changing his investment from Georgia bonds to other and better

-Mrs. Harriet Beecher Stowe gives up her plantation in Florida, for the reason that her Aitle acquired at a military tax sale, does not hold Lood; and the original owner regains possession, paying Mrs. Stowe the amount she expended for the estate.

-A communication from Berlin states that emigration to America is likely to assume extraordinary proportions this year. Juring the last three months 4000 persons have passed through that capital on their way to Hamburg and Bremen. They come principally from Pomerania and Eastern Prussia. -Mr. Charles Francis Adams is quoted as

having said that the treaty lately submitted about the Alabama claims was a good treaty. creditable both to Lord Clarendon and Mr. Johnson, and that it ought to have been adopted with some slight changes. Moreover, he thinks Sumner's speech on the subject did more harm than good.

-The Baltimore and Potomac Railroad Company propose to build a tunnel under the west end of Baltimore, so as to facilitate the paseage through that city. The tunnel will cost about a million of dollars, and it is expected that it will be done by the middle of next Jan- overshadowing supremacy of the past. uary. It will pass under the gas and water pipes, so as not to interfere with them.

-At the aunual meeting of the National Board of Underwriters in New York on Wednesday, a discussion occurred, without action. upon a proposition looking to a reduction of commissions to agents. An ordinance to regmate storage and the sale of petroleum, gaso lene. Ac., was adopted, which fixes the tests of places so used at one hundred and ten degrees Wahrenheit

-General Grant, since his inauguration a President, has made the following appointments of colored men: Postmaster at Columbia, S. C., worth \$3000 a year; assessor of the first district of Louisiana, worth \$1200 a year; two justices of the peace in the District of Colus, worth \$1000 a year each; minister to Hayti, worth \$4500 a year; minister and consulto Liberia, worth \$5000 a year,

-Miss Clara Louise Kellogg, after consent-ing to sing in New York for the benefit of the Cuba revolutionists, reconsidered the matter. and refused because the gentleman with whom sales has contracted her professional services had engaged to bring her out at Havana next autumn, in which case any apparent manifestation of sympathy for the insurgents here would be likely to prejudice her popularity.

... One of the old crew of the Alabama, who is now on board the Virginia at East Boston, says that the yacht Deerhound, which rescue s and his officers after the vessel was sunk by the Kearsage off Cherbourg, was in reality a paid tender of the Alabama, had on board at the time the captured chronome and a few days before had brought from England fifty trained gunners, who were working the Alabama's guns during the fight.

-A New York letter of the 20th instant says: "The talk in Wall-street to-day is of the large amounts of money which some of the gold speculators have made by the advance in the premium following the belligerent speech of Senator Chandler. One per cent. advance in half an hour for parties who buy and sell by the one hundred thousand dollars is a nice little fortune, and more than one name is mentioned who made the lucky hit."

The actors and actresses engaged on the London stage, desirous of having an opportunity of hearing one of Mr. Dicken's readings, but being prevented by the nature of their avocations from attending any entertainments in the evening, addressed a letter to Mr. Dickens, requesting him to give what in their own parce would be called a morning performance. To this appeal Mr. Dickens has acceded, and

will give three morning readings in London. -With the other advances of the day in railroad travel, must be noted an arrangement which has just been completed for through trains between New York and New Orleans. The only change of cars on this whole trip will be at Louisville, which is very nearly a halfway point. The through time will be seventysix hours. Sleeping-cars are to run on al trains, and berths or sections may be secure for the whole trip. At most seasons of the year the difference of climate between the terminal points of this immense line will require passengers to provide for a change of clothing inring the journey.

-It is stated, semi-officially, that the ceipts from customs now promise to be the largest of any one year in the history of the government—reaching probably \$190,000,000. or \$20,000,000 in excess of the estimates, and it is not impossible that they may even reach the high figure of \$200,000,000. The internal revenue receipte to the present time are in ex-

THE DAILY NEWS. | months, till July, will cover the greater portion of the income tax and the special taxes which fall due May 1, and which will augment the receipts to \$150,000,000, and possibly to

\$160,000,000. -It is said that when the character of Mr. Chandler's speech was explained to Mr. Thornton, the British Minister, he laughed scornfully and exclaimed, "Pshaw! very good speech to tickle Yankee Doodle's vanity, but nothing more it it. Vox et præterea nihit. America can't afford to go to war with us, you know, and we shan't be frightened by threats of that kind." He is also credited with the remark part of the man, not as an accident or an exthat the Chandler speech will be a God-send to the Tory party at home, as they will be sure to construe it as a menace; which the party in power will be called upon to resent, or else bear the odium of submitting to it. In any event, it will answer to inflame the popular feeling, and put the day of settlement farther away than over

#### CHARLESTON.

SATURDAY MORNING, APRIL 24, 1869.

New Channels of Trade.

The New York spring trade has not been nearly as active as it was expected to be, and the commercial press of that city are endeavoring to figure out the exact cause of the disappointment. The Southern trade was less than was expected, while the West is so orippled by the shrinkage in grain and the failure to realize upon the bulk of MPLOYMENT.—TEN DULLARS A day and constant employment guaranteed to every man and woman in wint of work, in a light, honorable and profitable business. Great inductionents offered. Descriptive circulars free. Address JAMES C. RAND & CO.,

March 13 s3mos Biddeford, Me. last season's crop, that the traders of that section have been unable to meet their obligations with the usual promptitude. But there is another solution of the matter that the New Yorkers seem to admit with W ANTED, A RICE THRESHER FOR a Louisiana Rice Piantation. Any one having a second-hand machine and desirous of selling it, may find a purchaser by addressing the undersigned, with particulars as to price, capacity, where located, size of engine required to drive it, &c. For further particulars, inquire of G. W. LOGAN, Broad-street, or address by mail, GEO. W. LOGAN, Jr., Factor and Commission Merchant, No. 24 Union-street, New Orleans. some reluctance, since it foreshadows a permanent loss of trade to their city. This is explained by a Washington paper to be the successful effort of the Western jobbers to establish a direct trade with foreign countries. The result of this movement is becoming more apparent each season. As the trade of the interior centres increases, the merchants of the principal distributive markets find it profitable to import for WANTED TO PURCHASE, A PAIR OF HANLSOME PLATED CANDELABRA, (old fashloned shape) with four or more lights, and without pendants. For a suitable pair a fair price will be given. Address "M. M.," care of THE NEWS OF FICE, stating price and where the articles can be seen. themselves, and it is simply a question of time as to when the great cities of the West, now demanding to be made ports of entry, will distribute most of their imported goods from their own centres, instead of paying tribute to the seaport markets and the numerous railroads. Many kinds of West India, South American and European productions, which were lately drawn from New York, now seek their destination via the Southern ports. The opening of the Pacific Railroad must tend to revolutionize the Asiatic trade, causing the goods of China and India to reach the Western cities. China and India to reach the Western cities via San Francisco instead of New York. To these movements must be added the growth of manufactures in the interior, and the increasing competition offered by and the increasing competition offered by Commerce on the Atlantic coast. Portland and Boston vie with WANTED, FIRST-CLASS TRAVEL-Wages or a liberal per cent. and steady employment. Address, with stamp, B. F. HOWE, No. 639 Arch-street, Philadelphia, Pa. 3mos April 3 New York for the trade of Canada and the Northwest. Philadelphia and Baltimore contend with her for the trade of the West and Southwest. Charleston and Norfolk will be formidable competitors, as their direct steamship lines become more nume-WANTED. AGENT'S FOR THE AMERIOAN FARMERS' HORSE BOOK, in both English and German, by Robert Stewart, V. S., of Miss.
The work covers the whole ground of the breeding
and raising, and the treatment of horses and mules,
bo'h in sickness and health. It has won its way to
popular favor, and is to-day the most popular and
best selling Horse Book out. Address O. F. VEN I,
Publisher, Cincinnati, O. 6mo\* March 19 rous and their railroad connections with the West and Southwest are completed.

New York will doubtless always continue to be the leading city of the Atlantic coast; but will hardly be able to maintain the

The Cup Which Cheers.

WANTED, EVERYBODY TO SUBSCRIBE to the CIRCULATING LIBRARY.—
CHARLES C. RIGHTER'S Belect Library of New
Books contains all of the latest publications.

April 21 No. 161 KING-STREET. The New York Tribune has found out April 21 that the climate and soil of the South are admirably adapted to the culture of the tes plant; and the New York Shipping and Commercial List says:

"Samples of the leaves of the Young Hyson Tes plant have been received from "the plantation of Captain Campbell, Knox-"ville, Tenn. The plants were obtained through the Agricultural Department at "Washington, in 1858, grew well, and have attained a size of from six to eight feet. "From the experiments made in Tennessee. "it seems that the eastern part of that State is well fitted for the growth of this

This is doubtless thought to be a wenderful discovery; and Mr. Greeley who, if he may be believed, understands Southern farming and planting better than men who have practiced it all their lives, will be surprised to learn that tea-raising in the South is no novelty. A Mr. Smith commenced the cultivation of tea many years ago near Columbia in this State, and was very successful. The example was followed by many others. Dr. Acee, of Talbot County, Ga., has been at the business for many years, and the plant is still grown, though not to any great

extent. The fact is that the tea plant may be easily raised anywhere in the South. It is hardy, vigorous evergreen, bears a beautiful blossom and makes a very handsome ornament for the garden. With a little care and attention any one may have all the varieties of tea, for they all come from the same bush, the difference being in the time. of getting the leaves, and have better tea than such as is adulterated by the Celestials, or the Yankees who import what once was a luxury, but what has become a necessity to almost every family. We may be for awhile Second Chop in politics, but if we like we can have at once First Chop tea.

Ir is reported that Dr. M. H. Collins is candidate for the office of Appraiser of the Port of Charleston, and has been recommended by one of the senators and three of Bouth Carolins. What his qualifications may be in the eyes of Congress and of the chespest wrapping paper that can be used. Apply at the office of THE NEWS. March 1 the representatives in Congress from President Grant we do not know; but we do know that Collins is repudiated by both Democrats and Republicans here, and only ercapes having a bad character by having no character at all. Mr. Parker, the present appraiser, is not known to us personally; but we understand that a request that he may be retained has been generally signed by the leading importing houses in the city.

Tun Bennettsville Journal, in view of what it regards as the extremely uncertain status of the negro bond question, advices its readers to hurry up and compromise debts of that character on the besis of twenty-five cents on the dollar, in all cases coss of \$110,000,000. The remaining three where such a settlement is possible.

t narrates the manner in which the musical

works of Mendelssohn were composed and

produced, no attempt being made to give tech-

nical analyses of his compositions or to trace

in hard lines the plan of his professional life.

His varied compositions are treated as being a

crescence, developing the idea that they who

know not his music know not Mendelssohn.

and that to those who know not Mendelssohn

his music is unknown. The story is one of

touching affection, earnest friendship and de-

voted love, with strains of the master's melo-

dy running through the whole, to form the

simple, enthusiastic and large-hearted man

whom the world knows as Mendelssohn. No

one can read this book without knowing bet-

No. 40 BROAD-STREET. Not Assets of this Department Invested

in this Community,

THIS ASSOCIATION WAS ORGANIZED ON THE 22d of June last, on'y nine months ago, and has already secured an annual revenue from premiums on existing policies of nearly \$500,000 (Five Hundred Thousand Dollars). Its new business for the nonth of December was \$72,393 36, insuring the

amount of \$1,157,000. Its new business for the month of January was \$86,524 71, insuring the amount of \$1,649,000. One month's business being greater than that done by the largest and wealthiest Life Insurance Companies in the United States during the entire first

venr of their existence. The Aggoriation was first started by the mos realthy and influential citizens of St. Louis, for

the purpose of changing the current of Life Insur-ance and Life Insurance capital from the East to the West and South, and as its plan is liberal and just to every section, State and district, the wealthy men of the West and South generally are insuring their lives in it, to the exclusion of other companies. This is shown by the fact that the policies issued during the months of December and January are of an averange amount of \$7,868 49, drawing an average annual premium of \$418 20.

The largest average attained by any other company, in the United States is about \$40.0 to each poli-

oy, while the average size of all policies existing in this country is only about \$2500. These facts speak for themselves. Officers. H. G. LOPEB, President (Cashier People's National
